AI IELTS Coach - Sample Reading Resource

This is a representative prototype PDF used to validate the real PDF viewer. In the production product, curated original IELTS-compatible resources can be registered through the resource service.

Urban Green Spaces and City Life

Urban green spaces can influence how people experience a neighbourhood. Parks, community gardens and tree-lined streets can reduce the visual and social pressure of dense urban environments while creating opportunities for residents to interact.

Practice note

Use the PDF viewer controls to navigate pages, zoom, search within this resource and enter fullscreen. Test mode can restrict these controls while learning mode keeps them flexible.
